

Planet Botanicals®

Organic Beauty Secrets from Around the World

Planet Botanicals offers a unique collection of luxurious organic skincare with some of the purest ingredients worldwide. Discover the natural abundance and ancient beauty secrets from around the world, where the rich cornucopia of organic plants and flower extracts have been used for thousands of years to heal and beautify.

This 100% natural and certified organic skincare collection offers you wonderful formulations, rich in organic plants, healing herbs and flower extracts. Planet Botanicals strengthens your wellbeing and provides excellent “food” for your skin, with its plethora of natural antioxidants, vitamins and phytonutrients, resulting in healthy, glowing skin.

This wealth of rare indigenous flower extracts and plant oils is ethically and sustainably sourced directly from producers and artisan distillers around the world.

Planet Botanicals is certified organic by ECOCERT, a global certification agency with strict standards for organic ingredient traceability and organic manufacturing, environmental sustainability and quality control. This certification means that all of the organic ingredients and products, from the farm to the final product, are grown and harvested and produced without any chemical contaminants. And that means healthy products for healthy skin.

Planet Botanicals also carefully sources its organic ingredients directly from local organic producers, cooperatives and artisan distillers based on the principles of fair trade and environmental sustainability, while also working with local partners in ways that accord with high ethical and environmental standards.

We look forward to nurturing and protecting your skin's natural balance with our organic, eco-friendly and effective skincare line.

Keystone Ingredients

Shea Butter: Certified organic East African Shea Butter is a rare form of shea butter, highly prized for its light creamy consistency and high phytonutrients content. It is readily absorbed by the skin and provides long-lasting protection. This is the main ingredient in Planet Botanicals' certified organic face balm and added to all their body balms. This shea butter is bought from local communities in East Africa, empowering local women economically for shea nut collection and harvesting.

Shea Oil: Shea Oil is expeller pressed from shea butter and is a wonderfully emollient and deeply penetrating oil that leaves the skin feeling velvety soft and smooth.

Body Balms and Body Oils are uniquely combined with nourishing African oils including Marula, Baobab, Kalahari Melon and Moringa.

Baobab: A light citrus blend with South African citrus limon and cape lavender

Marula: A floral blend of cape rose geranium, Madagascan ylang-ylang, Italian bergamot and cape lavender.

Moringa: A beautiful cape lavender from South Africa with a light sparkle of Italian bergamot.

Kalahari: An exquisite blend of neroli flowers and petitgrain with sweet orange and cape lavender.

Artisan-Distilled and Organic Essential Oil Blends

Kalahari Melon oil is a light penetrating oil, indigenous to the Kalahari Desert in Namibia and is rich in omega 6 & 9 essential fatty acids.

Infused with an energizing citrus blend of organic artisan-distilled essential oils of petitgrain sur fleur neroli, sweet orange, grapefruit and African lavender.

Baobab oil is rich in essential fatty acids, sterols and antioxidants, providing deep moisturizing and helping with skin elasticity. Excellent for normal to dry skin.

Infused with a light lemon blend of citrus limon and cape lavender, harvested and distilled in South Africa

Moringa oil, from the nuts of the Moringa "Miracle" Tree is chock full of radiance-boosting fatty acids and antioxidants and is well known for its purification properties and potent antioxidants.

Infused with African organic lavender with a light sparkle of organic Italian bergamot.

Marula is a much loved tree in Southern Africa and oil from its fruit pit is a wonderful skin-softening agent, rich in vitamins and oleic acid.

The Marula balm is infused with a fresh and floral blend of organic African Cape Rose with hints of Italian bergamot, Madagascan ylang ylang and cape lavender.

ORGANIC EAST AFRICAN FACE BALM WITH CALENDULA AND ALOE VERA

Key Benefits

Rare and highly prized for its light aroma and creamy consistency, cold-pressed certified organic East African shea butter is a superior daily or nightly moisturizer for the face, eye area and neck. Rich in natural antioxidant Vitamin E and phytonutrients, shea butter deeply nourishes and protects, delivering long-lasting hydration to the skin. Due to its light texture, it absorbs into the skin, leaving it soft and smooth. We add African marigold (calendula) which contains high amounts of flavonoids, plant-based antioxidants that protect the body against cell-damaging free radicals. We purchase our shea butter directly from producers in Uganda under fair trade principles.

Applications: Apply very small amount on fingertips and gently massage into face and neck. It will absorb completely after a few minutes, leaving your skin incredibly soft and well hydrated. Use as a daily moisturizer, as an under-eye cream or as a night moisturizer. Apply sparingly since a little goes a long way.

Ingredients: Vitellaria Nilotica (East African shea butter), Pelargonium Roseum x Asperum (cape rose – the unscented variety does not contain cape rose), Calendula Officinalis (African Marigold), Aloe Barbadensis leaf juice.

*Proceeding from organic farming. 99.9% of the total ingredients are from organic farming.

ECOCERT Certified Organic

Lightly scented with organic cape rose geranium, indigenous to South Africa, with skin toning and mild antiseptic benefits.

The unscented blend is perfect for those who prefer a face moisturizer without essential oils.

40g Price: €27

CERTIFIED ORGANIC HAND & BODY BALM WITH RARE EAST AFRICAN SHEA BUTTER

Super-absorbent & nourishing remedy for dry skin.

In pre-Golden Globes awards party ecogreen gift bag!

Key Benefits

Instantly restore moisture to thirsty skin with this highly absorbant and powerfully nourishing balm made with copious amounts of rare East African shea butter from Uganda, highly prized for its light consistency and phytonutrients. This balm leaves skin feeling incredibly soft and deeply hydrated within minutes with no oily residue. We add cold pressed Chilean rosehip oil, rich in vitamin A, and indigenous African oils (Moringa, Marula, Kalahari melon and Baobab), renowned for their centuries-old healing properties. Excellent long-lasting hydration for dry and chapped skin. Infused with pure organic artisan-distilled essential oils.

We work with local women's cooperatives in Uganda to source our shea butter based on fair trade principles.

Application: Apply very small amount and gently massage into skin, focusing on thirsty spots like hands, feet and elbows. Wait several minutes to soak in and your skin will feel soft, smooth and well hydrated with no oily residue. For normal to dry skin types.

Ingredients: golden jojoba oil*, cold-pressed East African shea butter*, unrefined beeswax*, cold pressed rosehip oil*, African oil (kalahari melon, organic marula*, moringa or baobab*) & essential oil blend*. *certified organic.
